Re: Explanation of Net Profit After Tax (CIT)
for Q1/2025

To: Hanoi Stock Exchange.

1. Company: Vicem Hoang Mai Cement Joint Stock Company
2. Stock code: HOM
3. Headquarters address: Tan Tien Block, Quynh Thien Ward, Hoang Mai Town, Nghe An Province
4. Tel: (02383) 866 170 Fax: (02383) 866 648
5. Authorized person for information disclosure: Mr. Tran Van Duc – In charge of Company Accounting

Explanation content: Explanation of Net Profit After Tax (CIT) for Q1/2025.

The Company recorded a net profit after tax of VND 0.5 billion in Q1/2025, an increase of VND 40.7 billion compared to the same period in 2024 (net loss of VND 40.2 billion in Q1/2024), mainly due to the following reasons:

1. Regarding product consumption and selling prices:

Domestic cement consumption in Q1/2025 reached 256 thousand tons, equivalent to the same period in 2024. Within this, the volume of bagged cement increased, mainly due to higher demand for rural transportation projects in Nghe An Province (up 23 thousand tons year-on-year), corresponding to the volume under Contract No. 06/STC-XMHM signed on September 24, 2024. Conversely, bulk cement sales declined by 25 thousand tons, as component projects of the North-South Expressway through Ha Tinh and Quang Binh entered the final completion phase, while new projects are still in the early stages of implementation. This change in the sales mix contributed VND 6.8 billion to profit.

The average selling price of clinker at the plant in Q1/2025 decreased by VND 22,000/ton compared to the same period in 2024, resulting in a profit reduction of VND 1.4 billion. Meanwhile, the average domestic selling price of cement was VND 900,000/ton, down VND 45,000/ton year-on-year, leading to a further profit reduction of VND 11.4 billion.

2. Regarding production volume: Clinker production volume in Q1/2025 reached 308 thousand tons, an increase of 71 thousand tons compared to the same period in 2024. In Q1/2024, the Company suspended kiln operations for major maintenance and simultaneously reduced clinker inventory. In contrast, the major kiln maintenance in 2025 is scheduled for the end of Q3/2025. This increase in production contributed VND 9.8 billion to profit.

3. Regarding input material prices:

The average coal price in Q1/2025 decreased by VND 46/kcal compared to the same period in 2024, resulting in a profit increase of VND 7.2 billion. Meanwhile, EVN implemented a 4.8% electricity price hike effective from October 11, 2024, leading to an increase of VND 79 per kWh in the average electricity price in Q1/2025 compared to the same period in 2024, causing a profit decrease of VND 2.4 billion.

4. Regarding energy and material consumption in production:

Since June 2024, the Company has started using alternative fuels and materials (tree bark, wood chips, and Group I general solid waste) to partially replace coal in clinker production. As a result, coal consumption in Q1/2025 was 516 kcal/kg of clinker, lower than the 804 kcal/kg of clinker in the same period in 2024. The consumption of alternative materials in Q1/2025 was 307 kcal/kg of clinker, contributing VND 24.9 billion to profit compared to the same period in 2024.

5. Revenue from waste treatment: The Company commenced waste treatment operations in October 2024. In Q1/2025, revenue from waste treatment amounted to VND 5.5 billion, resulting in a corresponding increase in profit compared to the same period in 2024.

STATEMENT OF THE BOARD OF EXECUTIVE OFFICERS

The Board of Executive Officers of Vicem Hoang Mai Cement Joint Stock Company (the "Company") presents this report together with the Company's financial statements for the First Quarter ended 31 March 2025 as follows:

The Boards Of Directors And Executive Officers

The members of the Board of Directors and the Executive Officers who held office from 1 January 2025 to 31 March 2025 are as follows:

Board of Directors

Mr. Le Trung Kien	Chairman
Mr. Nguyen Dinh Dung	Member
Mr. Le Dinh Thang	Member
Mr. Nguyen Ngoc Tinh	Member
Mr. Dau Duc Son	Independent member

Board of Executive Officers

Mr. Nguyen Dinh Dung	Chief Executive Officer
Mr. Dang Ngoc Long	Deputy Chief Executive Officer
Mr. Nguyen Ngoc Tinh	Deputy Chief Executive Officer
Mr. Le Dinh Thang	Deputy Chief Executive Officer
Mrs. Dau Thi Nga	Deputy Chief Executive Officer

The Board Of Executive Officers' Statement Of Responsibility

The Board of Executive Officers of the Company is responsible for preparing the financial statements for the First Quarter, which give a true and fair view of the financial position of the Company and its financial performance and its cash flows during the accounting period. In preparing these financial statements, the Board of Executive Officers is required to:

- Select suitable accounting policies and apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable accounting principles have been followed, subject to any material departures disclosed and explained in the financial statements;
- design and implement an effective internal control system for the purpose of properly preparing and presenting the financial statements so as to minimize errors and frauds;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Board of Executive Officers is responsible for ensuring that proper accounting records are kept which disclose, with reasonable accuracy at any time, the financial position of the Company and that the financial statements comply with Vietnamese Accounting Standards, the Vietnamese Accounting System, and legal regulations relating to financial reporting. The Board of Executive Officers is also responsible for safeguarding the assets of Company and hence for taking reasonable steps for the prevention and detection of frauds and other irregularities.

The Board of Executive Officers confirms that the Company has complied with the above requirements in preparing these interim financial statements.

For and on behalf of the Board of Executive Officers,

Nguyen Dinh Dung
Chief Executive Officer

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Form B 09a - DN

These notes are an integral part of the financial statements and should be read in conjunction with the accompanying financial reports.

1. GENERAL INFORMATION

Structure of ownership

Vicem Hoang Mai Cement Joint Stock Company (hereinafter referred to as the "Company") is a joint stock company converted (equitized) from Hoang Mai Cement Company, which was formerly a State-owned enterprise and an independently accounted member unit under the Vietnam National Cement Corporation (VICEM). Vicem Hoang Mai Cement Joint Stock Company was granted Business Registration Certificate No. 2703001834 by the Department of Planning and Investment of Nghe An Province on April 1, 2008, and Joint Stock Company Business Registration Certificate No. 2900329295 with the following amendments as follows: the first amendment on 12 October 2010; the second amendment on 24 August 2011; the third amendment on 23 April 2012; the fourth amendment on 8 July 2013; the fifth amendment on 15 November, 2013; the sixth amendment on 25 December, 2014; the seventh amendment on 11 June 2015; the eighth amendment on 12 October 2017; the ninth amendment on 3 December 2020; the tenth amendment on 19 July 2022; and the eleventh amendment on 3 April 2024, which included a change of the Company's address.

The total charter capital of the Company is VND 747,691,310,000, equivalent to 74,769,131 issued shares, with a par value of VND 10,000 per share. The existing shareholders include:

- Vietnam National Cement Corporation (VICEM), the State shareholder, holding 53,135,472 shares, equivalent to VND 531,354,720,000, accounting for 71.07% of the charter capital.
- Other shareholders, holding 21,633,659 shares, equivalent to VND 216,336,590,000, accounting for 28.93% of the charter capital.

The company's shares were officially listed on the Hanoi Stock Exchange on 9 July 2009, under the stock code HOM, with 72,000,000 shares listed. The company's additional shares were officially listed on the Hanoi Stock Exchange on 30 November 2020, under the stock code HOM, with a quantity of 2,769,131 shares. The total number of shares listed as of now is 74,769,131 shares.

The Company's headquarters is located in Hoang Mai Town, Nghe An Province.

The Company's dependent units include:

- Consumption department
- Industrial service department
- Investment and Construction department

The total number of employees of the Company as at 31 March 2025 was 695 (01 January 2025: 690)

Business Activities

- Trading of cement, clinker, spare parts, and industrial materials.
- Mining and processing of minerals.
- Manufacturing and trading of various types of construction materials.
- Construction of civil, industrial, transportation, and irrigation projects.
- Operating road, river, sea, and river-sea mixed transportation services.
- Real estate investment and business.
- Operating restaurants, hotels, tourism, and sports services.
- Drainage and wastewater treatment.
- Collecting non-hazardous and hazardous waste.
- Treating and disposing of non-hazardous and hazardous waste.
- Pollution treatment and waste management activities.

Main Activities

- The Company's main activities are the manufacturing and trading of cement and construction materials.

2. ACCOUNTING CONVENTION AND ACCOUNTING PERIOD**Accounting convention**

The accompanying financial statements are presented in Vietnamese Dong (VND), based on the historical cost principle and in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System issued under Circular No. 200/TT- BTC dated 22 December 2014, by the Ministry of Finance, and other current guiding and supplementary documents on accounting in Vietnam. The Company's financial statements are prepared by horizontally aggregating the indicators on the financial statements of the Company's headquarters and its units and enterprises after eliminating internal receivables, payables, and internal transfers between the headquarters and its units and enterprises.

Form of Accounting Records: General journal method.

Accounting Period

The Company's accounting period begins on 1 January and ends on 31 December of each year.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the key accounting policies applied by the Company in preparing the financial statements:

Estimates

The preparation of financial statements in compliance with Vietnamese Accounting Standards, the Vietnamese Accounting System, and relevant legal regulations on the preparation and presentation of financial statements requires the Board of Directors to make estimates and assumptions that affect the reported amounts of liabilities, assets, and the disclosure of contingent liabilities and assets as of the financial statement date, as well as the reported amounts of revenues and expenses during the financial year. Actual business results may differ from the estimates and assumptions made.

Cash and Cash Equivalents

Cash includes cash on hand, demand deposits, gold, silver, precious metals, gemstones, and cash in transit. Cash equivalents are short-term investments with a maturity period or redemption period not exceeding three months, which can be easily converted into a predetermined amount of cash and bear no risk of conversion into cash from the date of purchase of the investment at the reporting date.

Provision for Doubtful Debts

The provision for doubtful debts is made in accordance with current accounting regulations and Circular No. 48/2019/TT- BTC dated 8 August 2019, issued by the Ministry of Finance. Accordingly, the Company is allowed to make provisions for doubtful debts for overdue receivables or receivables that are due but may not be collectible due to the debtor's inability to pay.

Inventories

Inventories are valued at the lower cost and net realizable value. The cost of inventories includes purchase costs, processing costs, and other directly related costs incurred to bring the inventories to their current location and condition. The cost of inventories is determined using the weighted average method. Net realizable value is calculated as the estimated selling price of the inventories in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

Inventories Accounting

Inventories are accounted for using the perpetual inventory method. However, certain items stored outside warehouses, which are difficult to count, are accounted for using the periodic inventory method.

Work-in-Progress Costs

Work-in-progress costs include expenses incurred for production and business activities that are not yet completed at the end of the reporting period. Work-in-progress costs primarily include raw materials and clinker. The quantity of unfinished products is determined based on the end-of-period inventory count, and the value of work-in-progress is calculated by

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Form B 09a - DN

These notes are an integral part of the financial statements and should be read in conjunction with the accompanying financial reports.

adding the costs incurred to the opening balance of work-in-progress, dividing by the total production quantity and the opening balance quantity, and then multiplying by the closing balance quantity of work-in-progress.
Product Costing Method

The cost of cement products is determined using the step-by-step costing method, which includes the cost of semi-finished products.

The provision for inventory devaluation is made in accordance with current accounting regulations.

Tangible fixed assets and depreciation

Tangible fixed assets are presented at cost less accumulated depreciation.

The cost of tangible fixed assets includes the purchase price and all other directly related costs incurred to bring the asset to a ready-for-use condition.

The cost of tangible fixed assets that are self-constructed or self-manufactured includes actual construction costs, actual production costs incurred, as well as installation and trial run costs.

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives in accordance with the regulations set out in Circular No. 45/2013/TT-BTC issued by the Ministry of Finance on the management, use, and depreciation of fixed assets. The specific depreciation periods for each type of asset are as follows:

	Years
Buildings and structures	5 – 50
Machinery and equipment	3 – 20
Transportation vehicles	6 – 10
Management tools and equipment	3 – 10

Intangible Fixed Assets and Amortization

Intangible fixed assets are presented at cost less accumulated amortization and represent the value of management software programs. These assets are amortized using the straight-line method over a period of 4 years.

Construction in Progress

Assets under construction for production, rental, administration, or any other purposes are recorded at cost. This cost includes expenses related to construction investment and borrowing costs incurred during the construction period, in compliance with Vietnamese Accounting Standards. Depreciation of assets formed from such construction investment is applied similarly to other assets, starting when the asset is ready for use.

Long-term Prepaid Expenses

Long-term prepaid expenses include major repair expenses allocated over time, allocated consumable material costs, property insurance, fire insurance, other risk insurance, and other long-term prepaid expenses deemed to bring future economic benefits to the Company for a period of one year or more. These expenses are capitalized as long-term prepaid expenses and allocated to the Income Statement.

Revenue Recognition

Revenue is recognized when the transaction's outcome can be reliably measured, and the Company is likely to obtain economic benefits from the transaction. Sales revenue is recognized when goods are delivered, and ownership is transferred to the buyer. Service revenue is recognized when there is evidence of the percentage of service completion as of the end of the accounting period. Interest income is recognized based on the balance of deposit accounts, the applicable interest rate, and notifications from the bank.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Form B 09a - DN

These notes are an integral part of the financial statements and should be read in conjunction with the accompanying financial reports.

Foreign Currency

Transactions in foreign currencies are converted at the exchange rate on the transaction date. Exchange rate differences arising from these transactions are recorded in the Income Statement. Monetary assets and liabilities denominated in foreign currencies at the end of the accounting period are converted at the exchange rate on that date. Exchange rate differences arising from the revaluation of monetary items, receivables, and payables are recorded in the Income Statement for the year, in accordance with Vietnamese Accounting Standard No. 10 – "Effects of Changes in Foreign Exchange Rates."

Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction, or production of assets that require a substantial period of time to be ready for use or sale are capitalized into the cost of the asset until the asset is ready for use or sale. Any income generated from the temporary investment of borrowed funds is deducted from the cost of the related asset. Other borrowing costs are recognized in the Income Statement when incurred.

Taxation

Current tax liabilities are calculated based on taxable income for the year. Taxable income differs from net profit as presented in the Income Statement because taxable income excludes revenues or expenses taxable or deductible in different years (including any carried-forward losses, if applicable) and excludes non-taxable or non-deductible items. The determination of corporate income tax (CIT) payable by the Company is based on prevailing tax regulations. The Company is eligible for a 50% reduction in CIT.

Deferred tax assets and deferred tax liabilities are determined based on the tax rates expected to apply in the financial period when the asset is recovered or the liability is settled, following the tax rates and tax laws effective as of the end of the interim accounting period.

Other taxes are applied in accordance with the prevailing tax laws in Vietnam.
